Useful Information

- Our website (<http://business.wsu.edu/advising>) contains most of the information you will need to get the most out of your experience with the College of Business.
- If you would like to pursue a business minor, application for a minor is made via the online application site no earlier than the semester following your major certification. Space in many minor courses is limited so you are not guaranteed to be certified in your minor of choice. These choices include:
 - Accounting
 - Entrepreneurship
 - Finance
 - Hospitality Business Management
 - Human Resources/Personnel
 - International Business
 - Management Information Systems
 - Marketing

Please note that you are allowed only one business minor. See your advisor for more details.

- If you desire to pursue a second major in business, application is made through your advisor no earlier than the semester following your first major certification. Space in some majors is limited so you are not guaranteed to be certified in your second major of choice.
- The College of Business does not allow students who are enrolled in a Pullman campus course to be enrolled in any business course offered online through the Distance Degree Program.
